

OLEKSANDR SHTONDA

FRONTEND DEVELOPER

SUMMARY

I am a **Frontend Developer** with more than a year of experience, proficient in **JS/TS/HTML/CSS/React/Redux, Bulma framework and preprocessors**; I also possess a basic understanding of Python and SQL. My **educational background in IT** has been supplemented by intense self-study and training from industry professionals, including courses at ItStep and Mate Academy, enhancing my skill set for development work. I'm passionate about the limitless creative potential of programming, so I continue every day studying to be in the trend, and I'm eager to explore Angular or Vue shortly.

The **discipline and dedication** I carry into my development work are reflected in my background as a karateka and instructor. My achievements in karate, such as **2nd place** at a regional competition and **3rd place at an all-Ukrainian competition**, demonstrate my **commitment to excellence**. I approach every task intending to perform at my best, supported by consistent, rigorous training.

- Algorithms: Solved 151 tasks on CodeWars
- Basic OOP understanding, basic Python knowledge
- Knowledge of SDLC, Waterfall, Agile concepts (Scrum, Kanban)

LANGUAGES

- English – Upper-Intermediate
- Polish – Pre-Intermediate
- Ukrainian – Native

EXPERIENCE

Frontend Developer, From 2022

Responsibilities:

- Building several react applications using JSX, “font awesome”, TSX, hooks, router, and functional components
- Creating some Pixel Perfect, responsive web pages based on Figma grid layout design using HTML, CSS, SCSS, and JS
- Handling code reviews, investigating, reproducing, and fixing bugs
- Working with API, REST API, AJAX
- Completing the requested functionality (sometimes with additional elements, if appropriate)
- Refactoring code, using ESLint, good tone & syntax for better readability for other developers

PROJECTS

BSweets – sweets shop. It's ready to use for creating a full-stack shop **[HTML, SCSS, JS]**

- [Demo](#)
- [GitHub Code](#)

SportBikes – shop with bikes, their prices, and features. It's ready to use for creating full-stack shops **[HTML, SCSS]**

- [Demo](#)
- [GitHub Code](#)

Number-Block – game, where your goal is getting a cell with the number 2048 **[HTML, SCSS, JS]**

- [Demo](#)
- [GitHub Code](#)

LightManager – Task manager. Add tasks & mark them as completed in 1 click! **[HTML, SCSS, TypeScript, React, API]**

- [Demo](#)
- [GitHub Code](#)

C O U R S E S

- Frontend course at **Mate academy** (Git, HTML, CSS, JavaScript, Typescript, React, Web) – 850+ hours
- [Reactjs.org](#)
- **CodeWars** [[151 Katas Completed](#)]
- **Udemy:** [JavaScript – Full JavaScript course](#), [React – Full React course](#)
- **Sololearn:** [HTML](#), [CSS](#), [JavaScript](#)
- **Books:**
 - “*Clean code*” – Robert Martin
 - “*HTML & CSS. Development and designing websites*” – Jon Duckett
 - “*JavaScript*” – Ilya Kantor

A C H I E V E M E N T S

- Winner of karate tournaments (1st place – Tiger cup, 2nd – regional tournament in Kharkiv, 3rd – Kharkiv-open international), holder of 4 Kyu (dark-blue belt, World Karate Federation)
- Typing speed – 55 wpm
- Solved tasks: 300+ in the last 6 months [CodeWars + Mate Platform]
